A testimonial in respect of Gordon Shailer.

To whom it may concern.

I have found Gordon to be a most helpful computer technician with an excellent grip on reality and of the servicing of computers to the clients needs.

- ✓ Gordon has been helping with my computers for several years, and in that time has never given me incorrect advice or dubious repairs.
- ✓ Gordon has provided good sound advice and subsequently upgraded my computers when I have required upgrading to be done.
- ✓ Gordon helps me periodically when I need to get myself out of the self induced mess, as one does!
- ✓ Gordon has always been courteous and pleasant to deal with in the shop. He speaks in layman's terms not confusing me with techno speak giving me added confidence in his advice.
- ✓ Gordon gets the job done in a timely and practical manner fulfilling my requirements. To date I have never had to chase up my work nor have I ever had to take it back for remedial action after Gordon has undertaken repairs or upgrades.
- ✓ Gordon has always gone the extra mile taking care of all our computers. The manner in which he conducts himself and his ability with computers makes it very easy for me to recommend Gordon to all my friend and clients alike for all their computer needs.

I have no hesitation in recommending Gordon as an excellent, reliable computer technician who I believe to be a valuable asset to any company that employs him.

Sincerely

Doug C Tucker
